Our Mission Statement

The mission of Lee County Parks and Recreation is to enhance the quality of life in Lee County by providing a broad variety of accessible leisure, recreation, cultural activities and services.

Message From The Director

Deferred Maintenance

Most often, deferred maintenance is associated with vehicles, or equipment. We don't necessarily make this association in human terms. Deferred maintenance usually occurs when there isn't enough time, money, or interest to perform preventive measures to prolong the useful life of a structure, vehicle, or piece of equipment. When I got my first car (many years ago), my dad related something his father told him when he got his first car. My grandfather told my dad "Son, it won't hurt your car to run it without gas, but it will ruin it to run it without oil." The meaning, of course, is that for the car to provide long useful service, it's necessary to care for it and maintain it.

The human body is no different. It is necessary to maintain our bodies in mind, body, and spirit in order to provide for a long, useful, less stressful life. That means that not only do we need food (gas) to keep us going, but we also need exercise, rest, fellowship and time for meditation (oil). It seems our lives are more complicated and stressful than ever in trying to find the time, money, or interest to provide our bodies the maintenance needed.

Recreation and leisure pursuits can provide opportunities to relieve stress, get some exercise, socialize with friends or meet new ones, or realize some solitude in pleasant surroundings. Lee County's system of parks and programs offer a wide range of opportunities for recreation and leisure. It is hoped that the parks system and programs offered can help in providing a sense of place, a source of community pride, and a place for you.

The department would like your input concerning parks and programs. What do you like? What can be improved? How can the parks system better create a sense of place where you enjoy going to exercise, socialize, meditate, explore nature, etc.? How can we be proactive in this regard? Give us your thoughts. Visit the county's website for what is available. Contact us with your comments or concerns.
